### Worksheet 3.2: Policy Debate / Community Meeting

Name at least one thing that you saw from a different perspective or a way that your opinion changed because of the debate.

---

---

---

---

---

---

---

---

What did you learn about the public process and the importance of individual participation in that process?

---

---

---

---

---

---

---

---

Will you, personally, make choices and changes that take into consideration global warming? Why or why not? If yes, what changes will you make?

---

---

---

---

---

---

---

---

What is your opinion? Do YOU (not your character) think that International efforts need to be implemented to slow global warming? Explain.

---

---

---

---

---

---

---

---

Challenge Activity – Develop a realistic plan for your family, school or community to improve energy efficiency, use cleaner energy sources and/or use the land to minimize or stop human causes of global warming. Implement all or some of the plan, if possible.
