

Arctic Alive! Puzzle Set 2

Instructions for playing online puzzles:

I've created a few computer puzzles that your student can try and play.

The web site is:

<http://puzzles.apte.com>

The puzzles require shockwave or flash to play – the site will automatically start if you have these programs installed or it will show you how to download to your computer.

In order for students to play the puzzles I created, you need to supply them with my e-mail address (janet@arcus.org) My e-mail address identifies a unique Puzzle List.

On the main page, select *Make your own puzzles!*

Then select *Play "Just for You" Puzzles* and enter my e-mail address janet@arcus.org to display a unique Puzzle List.

Select any of the listed puzzles by double-clicking to begin.
